2020: In-House Pro Bono Rising to Meet the Challenge

Covering the Year 2019

CORPORATE PRO BONO

Founded in 2000, Corporate Pro Bono (CPBO) is the global project of Pro Bono Institute (PBI).

MISSION

CPBO's mission is to explore and identify new approaches to and resources for the provision of legal services to the poor, disadvantaged, and other individuals or groups unable to secure legal assistance to address critical problems. CPBO does so by supporting, enhancing, and transforming the pro bono efforts of in-house legal departments in the U.S. and around the world. Since its inception, CPBO has worked with more than 1200 legal departments and ACC chapters.

THE CORPORATE PRO BONO CHALLENGE® INITIATIVE

In 2006, at the urging of chief legal officers, CPBO launched an initiative enabling legal departments to identify, benchmark, and communicate their support for pro bono service. The Corporate Pro Bono Challenge® initiative is the standard for in-house pro bono. It is a simple, voluntary statement of commitment to pro bono service by legal departments and their lawyers and staff.

Specifically, the CPBO Challenge® statement calls for chief legal officers to:

- » encourage and promote pro bono service by their legal department staff;
- » use their best efforts to encourage their staff, including at least one-half of their legal staff, to support and participate in pro bono service; and
- » encourage the outside law firms with whom they work to acknowledge publicly their support for pro bono by becoming signatories to the Pro Bono Institute's Law Firm Pro Bono Challenge® initiative.

The Law Firm Pro Bono Challenge® Initiative

The Law Firm Pro Bono Challenge® initiative is the definitive aspirational pro bono standard for large law firms. By committing to a Statement of Principles, signatories pledge their best efforts to achieve the following goals of the challenge and annually report their progress to PBI:

an institutional commitment to encourage and support participation by all attorneys in the firm;

the firm annually contributes to pro bono work (as defined by the Law Firm Pro Bono Challenge® initiative) a minimum of either (i) five percent of total billable hours or 100 hours per attorney or (ii) three percent of total billable hours or 60 hours per attorney;

a majority of such pro bono work is spent representing persons of limited means or charitable, religious, civic, community, governmental, and educational organizations in matters that primarily address the needs of persons of limited means; and

a majority of both partners and associates in the firm participate annually in pro bono activities.

CONCLUSION

Since its inception, the number of signatories to the CPBO Challenge® initiative has grown steadily; however, several signatories have departed due to corporate changes, such as mergers and acquisitions, causing the total number of signatories to plateau in recent years. Over the history of the CPBO Challenge® initiative, pro bono participation by signatories' legal departments, including both attorneys and the legal staff, has generally increased, although this year the average staff participation rate in the U.S. dipped slightly (from 42% in 2018 to 38% in 2019). The average lawyer participation rate in the U.S. was 59% in 2019 compared to 58% in 2018.

ABOUT THE CPBO CHALLENGE® INITIATIVE

Companies are placing increased emphasis on corporate social responsibility as an integral part of their identity and strategic planning. For their legal departments, moving beyond compliance with operational, ethical, and legal standards to focus on improving the economic and social climate of communities and a broad range of stakeholders is not only the right thing to do but also promotes trust and enhances the companies' business goals.

Many legal departments have found that having a concrete and quantifiable, but voluntary, goal has helped to increase visibility, participation, and performance while assuring legal staff that they will not be disadvantaged because of their pro bono participation. The CPBO Challenge® goals are thus an important tool for corporate social responsibility and good citizenship.

The CPBO Challenge® Statement

As Chief Legal Officers, we recognize the critical importance of pro bono service as a cornerstone of our professional identity and accept the unique role that we can play in promoting pro bono in our legal departments. As leaders, we understand that the legal and business interests of our clients are furthered when access to the legal system is readily available to resolve disputes.

In recognition of our commitment and as signatories to this Corporate Pro Bono Challenge® statement, we will encourage and promote pro bono service by our legal department staff and use our best efforts to encourage our staffs, including at least one-half of our legal staff, to support and participate, as appropriate, in pro bono service.

To underscore the importance of promoting pro bono service, we will encourage the outside law firms with whom we work to acknowledge publicly their support for pro bono by becoming signatories to the Pro Bono Institute's Law Firm Pro Bono Challenge® initiative.

METHODOLOGY

All data included in this report is presented in the aggregate to maintain the confidentiality of the Corporate Pro Bono Challenge® survey respondents.

The primary objective of the survey was to determine if CPBO Challenge® signatories met the goal of 50 percent participation in pro bono. In addition, survey questions solicited information about pro bono policies and practices, including partnerships with outside law firms. A copy of the survey is included in the appendix at the end of this report.

CPBO began surveying CPBO Challenge® signatories in 2007. Each year, the survey response rate has varied with a different combination of departments responding. In 2019, 45 out of 183 signatories submitted responses, whereas in 2020, only 36 of 183 signatories eligible to participate submitted responses. CPBO sent out its survey in March 2020 and extended the response deadline through June 2020. CPBO recognizes that the transition to remote work and the demands on legal departments during the coronavirus pandemic may have resulted in unusually low response rates this year.

CPBO Challenge® signatories contribute tremendous value by reporting their pro bono work. CPBO continues to encourage signatories to respond to the survey each year. Increasing the number of respondents will allow CPBO to conduct and publish more extensive analysis of the data.
